

## Company Fast facts

### Who We Are

Almond Communications (“Almond”) is a customer-focused e-Business firm that has since 2002 provided premium business solutions for best Return on Investment, Business Value and Customer Satisfaction. To date, we have served thousands of customers, some still with us since 2005 when we embarked on domain hosting services.

### What We Do

We provide a focused range of high quality On-Line Communication solutions to customers in various fields such as Corporate, Education, Non - Governmental Organizations, Manufacturing and home users.

Our Solutions include:

- Domain Management Services
- Web & E-Mail Hosting
- Web Marketing (Niche Website Marketing e.g. CARS.CO.KE, LAWYERS.CO.KE, etc)
- Web Development and Maintenance
- e-Business Training and Strategy Development

As a professional and trusted consultant and adviser, Almond provides the best solutions for businesses and individuals looking to maximize return on their ICT investments and realize true enhancement of their business value. Our deep market and industry knowledge in I.C.T. enables us to help clients address issues specific to their businesses, and our unmatched “Enjoyable Service” ensure we continue to serve our clients very well.

### How We Do It - A Customer Driven Approach

Our skills and experience in ICT Hardware and Software Systems and Services, Networking and Internet Technologies to ensure that our clients enjoy excellent service and real business value. We deploy a best-of-thought Almond solutions combined with best-of-breed technology model for the service delivery of our solutions and services. With carefully selected local and international partners, we have a suite that exceeds our clients’ expectation of truly cutting edge business solutions.

More importantly, our passion for “Enjoyable Service” goes further to guarantee customer satisfaction. Almond helps customers to reliably, efficiently and cost-effectively realize maximum benefit from their I.C.T. investment. Whatever your hardware, software or connectivity requirements, we have a solution that suits your needs.
